

Jabber Telescopic Masts

High Grade Galvanized Steel

30ft / 9m Mast

First Section
Diameter Ø51mm
Length 2639mm
Thickness 1.5mm 1pc

Second Section
Diameter Ø45mm
Length 2670mm
Thickness 1.5mm 1pc

Third Section
Diameter Ø38mm
Length 2710mm
Thickness 1.5mm 1pc

Fourth Section
Diameter Ø32mm
Length 2800mm
Thickness 1.5mm 1pc

Closed Length: 2800mm / 9ft

Weight: 15kg

40ft / 12m Mast

First Section
Diameter Ø57mm
Length 2590mm
Thickness 1.5mm 1pc

Second Section
Diameter Ø51mm
Length 2639mm
Thickness 1.5mm 1pc

Third Section
Diameter Ø45mm
Length 2670mm
Thickness 1.5mm 1pc

Fourth Section
Diameter Ø38mm
Length 2710mm
Thickness 1.5mm 1pc

Fifth Section
Diameter Ø32mm
Length 2800mm
Thickness 1.5mm 1pc

Closed Length: 2800mm / 9ft

Weight: 21kg

50ft/15m Mast

First Section
Diameter Ø57mm
Length 3140mm
Thickness 1.5mm 1pc

Second Section
Diameter Ø51mm
Length 3179mm
Thickness 1.5mm 1pc

Third Section
Diameter Ø45mm
Length 3218mm
Thickness 1.5mm 1pc

Fourth Section
Diameter Ø38mm
Length 3257mm
Thickness 1.5mm 1pc

Fifth Section
Diameter Ø32mm
Length 3350mm
Thickness 1.5mm 1pc

Closed Length: 3350mm / 11ft

Weight: 31kg

Jabber Telescopic Masts

High Grade Galvanized Steel

Specifications

Jabber Telescopic Masts made of 5 sections (30ft has 4 sections). Each section of the mast has a 1.5mm wall thickness, they lock into place with metal locking mast clamps (supplied).

Each section is also fitted with a 5-hole metal guy plate & metal locking mast collars. These masts are very substantial, very hard wearing and built for extreme / military use.

These masts have been used guyed with HF beams, hexbeams, verticals and all wire aerials and CCTV cameras.

Maximum weight load 25kg.

CPR Regulations

Under the CPR (Construction Products Regulation, EU 305/2011), CE marking is only required where:

- The construction product is intended to be permanently incorporated into a building or civil engineering works and
- Where there is an applicable harmonized European Standard (hEN) covering the construction product.

The masts supplied by Jabber Products Limited are temporary products as they are not permanently incorporated into buildings or civil engineering works nor are there any standards (hEN's) applicable to these products and therefore CE Marking is not required.

Certain construction products manufactured from steel are within the scope of CE marking under the CPR but the scope of these standards does not cover the extendable masts supplied by Jabber Products Ltd.

Info and Shipping

Our Telescopic Masts are built and manufactured to our specification, because after 40 years experience in radio we could not find a suitable, heavy duty, high quality masts at reasonable prices.

We supply private and trade with our UK stock. We also supply similar products, such as our Jabber QuadPod Masts, and our Lattice Towers.

Please note: These masts are delivered in a canvas shipping bag. These are lightweight cloth bags to protect the couriers hands in shipping only. These bags are not intended for storage or further shipping of mast. Please recycle.

We can ship to Europe and Worldwide. Contact us for shipping prices.
